NZIA Regional Award 2002
NZIA Architecture Award 2003

The future of our nation, our people and our community is unthinkable without knowledge of our past.

This purpose built facility accommodates both an archive vault for TVNZ's film multi-media collection and a production library servicing both TVNZ and other international news, film and media production agencies.

An essential component of the brief was to facilitate immediate access to documents whilst ensuring the cultural heritage of the collection is preserved and kept alive as an object of research and enrichment.
