

ARTS + CULTURE

Te Papa

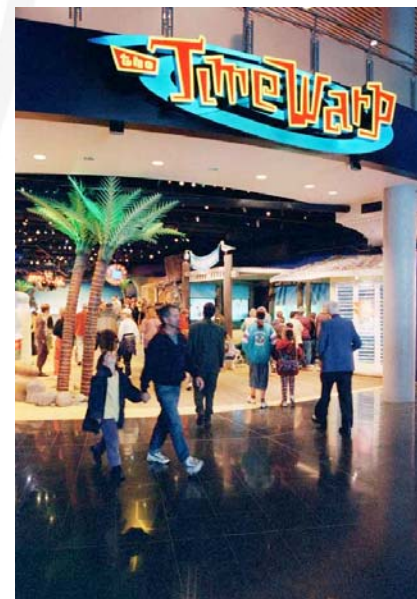

Iconic, commanding and hugely successful, Te Papa exhibits our country's treasures in a manner internationally acclaimed as "truly unique and quite distinct from any other museum".

An exciting combination of exhibits and leading edge technology engages visitors with their story and narrative. Enlivened by events both planned and spontaneous, Te Papa entertains and informs visitors in a uniquely Kiwi way.

Our role focussed on creating this remarkable success as an integral member of the exhibition project team.

When we joined the project, time and cost pressures were evident. Many exhibition concepts were so unique they had never been achieved before. We had to "think outside the square" to achieve pragmatic and cost effective solutions while also achieving unparalleled quality standards.

Our commitment to teamwork was infused throughout the entire project team from the outset. Our specialist skills focused on delivering solutions inherent with design objectives and aspirations. Through working in partnership and leveraging the specialist skills of all team members, the success of this project was realised.
